SUPPLIER
GUIDELINES

PREFACE

AbbVie's suppliers are an integral part of the overall success of AbbVie. Each day, AbbVie and its suppliers make decisions that impact AbbVie's ability to provide quality healthcare products to its customers.

These guidelines document the principles, guidelines and expectations for establishing and maintaining a business relationship with AbbVie. AbbVie works within standards set by federal, state and industry regulations and is committed to having business relationships with suppliers who share the company's dedication to conducting business in a legal and ethical manner. Because our suppliers are an extension of our business, we have the same expectations for them.

AbbVie is aware of cultural differences and challenges associated with interpreting and applying these principles globally. While AbbVie believes these principles are universal, we understand that the methods for meeting these expectations may be different, but must be consistent with the laws, values and cultural expectations of the different societies of the world.

All AbbVie suppliers are expected to understand and comply with the "AbbVie Supplier Guidelines." Suppliers are strongly encouraged to contact an AbbVie purchasing representative with any questions. Suppliers are also strongly encouraged to contact AbbVie Purchasing and Supplier Management whenever there are questions relating to the appropriateness of any activity. Purchasing employees can provide an overview and further guidance on applicable AbbVie policies.

AbbVie reserves the right to verify a supplier's compliance with "AbbVie's Supplier Guidelines" document. If AbbVie becomes aware of any actions or conditions not in compliance with "AbbVie's Supplier Guidelines," AbbVie reserves the right to seek corrective action.

AbbVie has established a program to monitor Supplier Social Responsibility which includes surveying and auditing supplier adherence to AbbVie's Supplier Guidelines. If you require additional information regarding this program, please contact AbbVieSupplierSocialResponsibilityProgram@AbbVie.com.

AbbVie Purchasing and Supplier Management is responsible for managing supplier relationships. Correspondence and questions related to materials or services should be directed to the appropriate purchasing function.

AbbVie appreciates the contributions that suppliers make toward the success of the company and looks forward to continuing supplier relations designed to ensure a mutually beneficial business relationship.

ETHICS

Suppliers shall conduct their business in an ethical manner and act with integrity. AbbVie expects suppliers to comply with all legal and regulatory requirements regarding ethics including:

1. Business Integrity and Fair Competition

Suppliers shall conduct business competitively and in full compliance with all applicable laws, codes and regulations. Suppliers shall not pay or accept bribes or participate in other illegal inducements in business or government relationships. Suppliers shall employ fair business practices, including accurate and truthful advertising.

AbbVie employees are obligated to comply with all applicable provisions of the AbbVie Code of Business Conduct, including the following concepts related to supplier relationships:

- Employees shall deal with all suppliers, customers and all other persons doing business with AbbVie in a completely fair and objective manner without favor or preference based on personal financial considerations or personal relationships.
- Employees shall not accept or provide (directly or indirectly) gifts, prejudicial discounts, payments, fees, loans, entertainment, favors or services from any person or firm, which may influence or give the appearance of influencing purchasing decisions.
- No employee shall do business on behalf of AbbVie with a close relative or own any financial interest in a supplier's business, where the AbbVie employee has the appearance or ability to impact the supplier's relationship with AbbVie. Such relationships must be disclosed per AbbVie policies.
- No employee shall grant permission for use of AbbVie's name and/or logo without permission from AbbVie Public Affairs.

AbbVie contract workers and agents (for example, consultants, contract sales forces, speakers, distributors, clinical investigators) must also comply with the applicable provisions of the AbbVie Code of Business Conduct.

AbbVie employees and suppliers are expected to report violations or possible violations of these Supplier Guidelines to AbbVie Purchasing and Supplier Management or to the AbbVie Office of Ethics and Compliance, either directly or via the Ethics and Compliance Hotline (1-800-254-0462).

AbbVie will promptly investigate reported violations of the AbbVie Supplier Guideline and expects employees and suppliers to cooperate in the investigation. If corrective action is required, AbbVie will outline steps to address the issue.

Alternatives should be used when scientifically valid and acceptable to regulators.
