Other Real or Potential Conflicts of Interest

Please provide any other (e.g., non-financial) real or potential conflicts of interest that could be perceived to influence the responsibilities and decision-making process of this independent panel. For example, potential biases based on pre-existing personal views, academic or commercial competition, personal relationships or institutional affiliations.

Not applicable

Management of Conflicts of Interest

Summarize how real or potential conflicts of interest related to the funding of the proposed research, other financial relationships, or other real or potential conflicts of interest will be managed (for example, through disclosure of interest statements when the research is presented or published).
