AbbVie Supplier Code of Conduct

Effective January 2022
January 2022

At AbbVie, the patient is at the center of everything we do. We draw on our expertise in some of the most difficult-to-treat diseases and our understanding of the patient journey to identify opportunities to create better outcomes. We create the products and technologies that drive the advancement of aesthetic medicine.

Our commitment to patients extends to every aspect of our work. We view our suppliers as partners in delivering on our commitment to having a remarkable impact on patients’ lives and expect that they will act accordingly.

And, just as we hold ourselves to the highest standards of ethics and compliance, we expect the same from each of our suppliers. In fact, we pride ourselves on the strong relationships we build with suppliers and our shared focus on ethics, compliance, fair practices, integrity, safety, sustainability, and quality.

By signing the AbbVie Supplier Code of Conduct, you agree to follow each of its principles, guidelines, and expectations.

Thank you for your commitment to this important work.

Regards,

Azita Saleki-Gerhardt, Ph.D.
Executive Vice President, Operations
Preface
AbbVie’s suppliers are an integral part of the overall success of AbbVie. Each day, AbbVie and its suppliers make decisions that impact AbbVie’s ability to provide quality health care products to its customers.

The AbbVie Supplier Code of Conduct documents the principles, guidelines, and expectations for establishing and maintaining a business relationship with AbbVie. AbbVie works within pharmaceutical and medical device standards set by federal, state, and industry regulations and is committed to having business relationships with suppliers who share AbbVie’s dedication to providing quality products and conducting business in a legal and ethical manner. Because our suppliers are an extension of our business, we have the same expectations for them.

AbbVie is aware of cultural differences and challenges associated with interpreting and applying these principles globally. While AbbVie believes these principles are universal, we understand that the methods for meeting these expectations may be different but must be consistent with the laws, values and cultural expectations of the different societies of the world.

It is the responsibility of all AbbVie suppliers to maintain a Quality Management System that assures consistent conformance of their products and services to specified requirements. AbbVie suppliers are fully responsible for the quality of their products/services and the safety and security of their supply chain.

All AbbVie suppliers are expected to understand and comply with the principles, guidelines, and expectations set forth in this AbbVie Supplier Code of Conduct. Suppliers are strongly encouraged to contact an AbbVie procurement representative with any questions. Suppliers are also strongly encouraged to contact AbbVie Procurement and Supplier Management whenever there are questions relating to the appropriateness of any activity. AbbVie’s Procurement and Supplier Management employees can provide an overview and further guidance on applicable AbbVie policies.

AbbVie reserves the right to verify a supplier’s compliance with this AbbVie Supplier Code of Conduct. If AbbVie becomes aware of any actions or conditions not in compliance with this AbbVie Supplier Code of Conduct, AbbVie reserves the right to seek corrective action.

AbbVie has established a program to monitor Supplier Social Responsibility which includes surveying and auditing supplier adherence to the AbbVie Supplier Code of Conduct. If you require additional information regarding this program, please contact SupplierSustainability@abbvie.com.
