ABBVIE GLOBAL SUPPLIERS SUSTAINABILITY PROGRAM
Annual Supplier Sustainability Survey

As an important supplier to AbbVie, we would like to document and assess your company’s activities and progress regarding sustainability / environmental, health, and safety (EHS) programs. At AbbVie, sustainability means creating lasting social, environmental, and economic value by addressing the needs of the company’s wide-ranging stakeholder base. The goal is to realize today’s priorities and commitments in a way that ensures that the company and the communities depending on it can thrive for generations to come. AbbVie’s comprehensive sustainability program includes priorities to reflect issues of key concern and where the company is uniquely positioned to have a positive impact. The questions included in this survey align with AbbVie’s sustainability priorities and goals. One of AbbVie’s priorities and goals states that AbbVie is committed to setting a Science Based Target (SBT).

Suppliers are not penalized for their responses; we are striving to continually improve the sustainability level of our supply chain. Our objective is to track and monitor our suppliers’ activities and progress towards environmental / sustainability programs with the goal of demonstrating continuous year-over-year improvement as companies put more attention to current sustainability and environmental issues. AbbVie’s promise, as shown at https://www.abbvie.com/societal-impact.html demonstrates the company’s commitment to addressing global sustainability challenges and outlines progress toward several of our key initiatives. If you have any questions regarding this survey, please contact SupplierSustainability@abbvie.com.

Thank you for your support!
AbbVie Global Environmental & Supplier Sustainability Survey

Monitoring and Reporting of Environmental Data
1. Do any of your company’s products contain any EU REACH (EC 1907/2006) Substances of Very High Concern (SVHC) at levels >0.1% w/w? Please explain your answer.
   a. Yes
   b. No
   c. Not Applicable
2. Does your company implement any of the following programs? Select all that apply.
   a. A Product Stewardship/Life-cycle Approach to reduce the environmental impacts of production
