2017 IMAGINE

A COMPANY THAT TAKES ON THE TOUGHEST HEALTH CHALLENGES BUT DOES MUCH MORE THAN JUST TREAT DISEASES

PEOPLE. PASSION. POSSIBILITIES.
WE ARE ABBVIE, A HIGHLY FOCUSED, RESEARCH-DRIVEN BIOPHARMACEUTICAL COMPANY.

It takes a global leader to deliver patient-centered solutions around the world. We uniquely combine the assets and capabilities of an experienced pharmaceutical company with the flexibility and focus of a biotech to pursue the most meaningful opportunities for patients. The result is a research-driven biopharmaceutical company committed to developing innovative advanced therapies to address today’s health issues — from life-threatening illness to chronic conditions.

We target specific difficult-to-cure diseases where we can leverage our core research and development (R&D) expertise to advance science and create solutions that go beyond treating the illness to have a positive impact on patients’ lives, as well as on economies, societies, and science itself. We look at problems holistically, from many perspectives, because that’s how you find the best solutions to the world’s increasingly complex challenges.

FOCUS MATTERS
We focus on discovering, developing, and delivering drugs in therapeutic areas where we have proven expertise and where we can have an impact. These areas include:

• IMMUNOLOGY
• ONCOLOGY
• VIROLOGY
• NEUROSCIENCE

INVESTING $4.2 BILLION TO ADVANCE SCIENCE

It takes unwavering commitment and confidence to bring solutions from the petri dish to patients. AbbVie invested $4.2 billion* in research and development (R&D) in 2016 to discover and test compounds with the potential to treat more than 400 million people across the globe. AbbVie is deeply committed to efforts that advance science and solve the world’s toughest health challenges.

*Reflects 2016 R&D investment excluding specified items. 2016 GAAP R&D investment totaled $4.4B.

ABBVIE HAS A ROBUST PIPELINE

5,200+ WORKING IN SCIENCE IN THE U.S.

AbbVie has 50+ active clinical development programs

Consistent with our long-term strategy and large investment in R&D, we have a number of programs in mid- and late-stage development and continue to make significant pipeline advancements.
INVESTING IN TOUGH HEALTH CHALLENGES

An estimated one billion people suffer from neglected tropical diseases. In response, nearly 250 of AbbVie’s most experienced scientists voluntarily contribute expertise to partner organizations and help advance the discovery and development of new medicines for onchocerciasis (river blindness), lymphatic filariasis (elephantiasis), malaria, and tuberculosis. Since 2013, AbbVie scientists have dedicated 60,000 pro bono hours to researching neglected diseases.

ABBVIE VOLUNTEERS EXPERTISE TO COMBAT NEGLECTED DISEASES

23,000+
COMPounds PROVIDED FOR SCREENING AGAINST NTDs

9,500+
SAFETY ASSAYS PERFORMED ON COMPOUNDS

20% OF THE WORLD’S POPULATION SUFFERS FROM NEGLECTED TROPICAL DISEASES (NTDs)*

NEARLY 250 ABBVIE SCIENTISTS VOLUNTEERED TIME TO FIND SOLUTIONS

21,580+ HOURS OF EXPERTISE TO HELP SOLVE NTDs

2015 TO 2016 INCREASE IN RECYCLING RATE FOR HAZARDOUS AND NON-HAZARDOUS WASTE

58 MILLION METRIC TONS

37% ↑

THE ABBVIE FOUNDATION

The AbbVie Foundation is a nonprofit 501(c)(3) entity. It is dedicated to having a remarkable impact on the lives of the underserved around the world through a commitment to building strong communities, sustainable healthcare systems, and effective educational programs.

ABBVIE PROTECTS THE ENVIRONMENT

ABBVIE IS COMMITTED TO ENVIRONMENTAL STEWARDSHIP

FROM 2013 TO 2016, ABBVIE REDUCED ITS ABSOLUTE CARBON DIOXIDE EQUIVALENT EMISSIONS BY 58 MILLION METRIC TONS

THESE REDUCTIONS EQUATE TO REMOVING 12 MILLION CARS FROM THE ROAD*
IMPACT ON ECONOMIES

EACH JOB AT ABBVIE CREATES OPPORTUNITY FOR OTHERS

AbbVie is an economic multiplier. With approximately 29,000 employees globally, our total impact on employment is up to four times that amount through direct and indirect business activity. The jobs we create pay well and attract a workforce with diverse skills and educations, including Ph.D. research scientists, laboratory technicians, support staff and more, who live, work, and spend money in their local communities. We also spend millions of dollars each year with suppliers purchasing goods and services. This all provides benefits for third-party suppliers and local economies in the form of higher sales, tax revenue, and economic development.

We value the diverse backgrounds and perspectives of our employees, and we have an inclusive culture. AbbVie is also committed to recruit, engage, and support U.S. troops and veterans as they re-enter civilian life.

56,000 SUPPLIERS BENEFIT FROM OUR $8 BILLION IN SPENDING

In 2016, AbbVie spent more than $8 billion with more than 56,000 third-party suppliers across multiple industries. AbbVie creates opportunities and growth in industries that support the discovery, development, and distribution of new medicines. This investment includes diverse suppliers: AbbVie spent over $515 million with approximately 2,000 U.S. small and diverse-owned businesses in 2016.
